

Annex I

A summary of samples/data collected by JARPN II (2000-2014)

Some samples and data obtained by JARPN II are not related to the main research objectives of JARPN II or to other main research need, and these items are not listed here but they are available for research collaboration with ICR under data access protocols of ICR (<http://www.icrwhale.org/pdf/appendix2.pdf>), outside the context of the IWC SC review workshop.

The tables below show the research items and sample sizes by each item for the period 2000-2014.
